Reduced Fares on Rail- ways for Dominion Day

Winnipeg—Canada's principle summer holiday—Dominion Day, July 1—falls on Saturday this year and, for the convenience of those Canadians who wish to visit friends and relatives or to enjoy their outing at points away from their homes, the Canadian railways have arranged low fares providing for their one-day or longer holiday trips. Announcement to this effect has been made by Jos. Parker, Secretary of the Canadian Passenger Association. Return tickets will be sold, good between stations in Canada, at one and a quarter times the regular

one-way fare, good going from noon on Friday, June 30, to noon on Sunday, July 1, and for return, good on trains leaving not later than midnight, Standard Time, on Monday, July 3. In addition, there will be special one-day fares, the return tickets being sold at regular one-way first class fares. These tickets will be good going on any train after 1 a. m., Standard Time, on July 1, with the return portion good on any train reaching the original starting point up to midnight of the same day. The special Holiday tickets will be good between any points which can be visited within the period limited of the respective tickets.

IRMA SCHOOL REPORT

Miss Winnifred Taylor submits a school report for the Irma school junior room:

Promoted from Grade IV-V in order of standing:	Average for Year
(Class Average 76)	
Phyllis Schon	89
Marjorie McFarland	87
Jacqueline Tate	84
Edna Schoner	83
Marian Higginson	82
June Levitt	81
Elsie Larson	78
Albert Sonoff	77
William Latner	71
James Sonoff	65
Evelyn Elford	64

Grade III-IV:	(Class Average 72)
Leo Thurston	73
Lloyd Herbert	71
Grade II-III:	
Susie McKay	91
May Levitt	89
Muriel Wilbraham	85
Haviland Elford	85
Edna Arnold	83
Ivor Thurston	82
Theodore Hill	79
Tony Sonoff	77

Grade I-II, not in order of standing: Ross McFarland, Herbert Sonoff, Arnold Larson, Audrey Jones, Almina Hill, Kathleen Jones, Irene Glasgow, Doris Gultner.

STAMPEDE NOTES

The attendance at the Buckskin Flats stampede was considerably smaller this year than it was last, although a good line of attractions had been arranged for. There were four baseball teams on the job, all trying to win first money. The first game was between the Red Stars of Irma and the Coal Springs boys, which teams are fairly well matched, having played several tight games this season. However, this time the Red Stars got the long end of a rather uneven score—8 to 4.

The next game was between Camp Lake and Hardisty, which resulted in an easy win for Hardisty by a score of 14 to 3.

The play-off between the two winners, Red Stars and Hardisty, proved to be a good game and was won by the Red Stars to the tune of 8 to 5. It is rumored that we may have a chance to see the same four teams perform in Irma on July 19th.

The two aeroplanes attracted a considerable crowd and were kept busy taking up passengers for rides. The pilots indulged in several stunt features, much to the discomfort of some of the passengers. A parachute jumper who had accompanied the pilots made one jump in the evening from a height of 1200 feet, landing in a grain field a short distance away.

In the bucking contest the competition was not as keen as last year owing to the scarcity of riders. Mr. Ambler had a better bunch of horses than a year ago, having succeeded in getting fifty head of the best buckers from the Myers' ranch, near Wainwright.

H. Myers, of Wainwright, won the first prize in the bucking contest, riding with a saddle, while Geo. Algie of Minburn, and R. Hamilton won second and third places respectively.

The wild horse race was won by Geo. Algie, only one prize being given for this event. In the wild cow milking contest, which was very interesting, the three prizes were won by Messrs. Smith, Sarson and H. Myers respectively. Mr. Cliff Sears of Hardisty, proved to be the best calf roping in the crowd with H. Myers coming second.

A number of the boys tried their hand at riding bucking horses bare-back and were all rewarded with a cash contribution. Those taking part were Messrs. Hankey, C. Grant, C. Sears, W. Giberson, R. Hamilton, Sarson and Ealsie.

In the steer riding contest, sixteen of the lads were successful in sticking to the hurricane deck of a wild steer to the satisfaction of the judges and were given a cash donation for their efforts.

The men chosen for judges were: Messrs. Wm. Lambert, Sears, and Dan Derchenau. A large part of the crowd stayed on for the dance in the evening which was held on an open air pavilion, which had been carefully constructed on the grounds. The music for the dance was supplied by the old reliable Coulman orchestra and was thoroughly enjoyed by all.

Although the day was bright, the air was quite cool which no doubt accounted for the small volume of business done by the refreshment booths on the grounds.

H.R.H. The Prince of Wales

who celebrated the anniversary of his 39th birthday, Saturday, June 24th.

Edmonton Exhibition Takes Place Commencing July 17

With the cheapest railway rates ever in effect for the Edmonton Exhibition, and tickets selling in advance at the cut rate of five admissions for \$1, it is anticipated that the Edmonton Exhibition will again repeat its success of 1932, when it had the honor of being one of the three Class A exhibitions on the American continent to reverse the history of the previous year and show a goodly surplus. Not only are financial inducements in the way of cut rates offered to patrons, but this year's programme is very attractive, including seven days of horse racing, and the use this year for the first time of starting chutes for the race horses, thus insuring quick and snappy starts for the races.

The grand stand programme is one of the finest ever secured for Fair patrons, featuring the gorgeous spectacular "Bird of Paradise" review which was purchased in France to fill American and Canadian arrangements. In addition, a number of outstanding vaudeville acts have been secured. The Castle, Erlich and Hirsch shows will furnish a midway that will please the most exacting tastes, and many a party will this year be made up to "do" the tents of mystery, magic and entertainment, and the rides; formerly this sort of entertainment was left for the young, but now instead dignitaries of officialdom, find renewal of youth and relaxation from business cares in a trip of fun around the midway.

The educational and mercantile exhibits will be as usual be very attractive, featuring the latest in all farm and home equipment. A new departure will be of interest to Women's Institutes—a series of Little Theatre plays under the supervision of Mrs. Haynes, to be staged in the Women's Building daily.

Basketball and Horsehoe Pitching tournaments, daily Old Timers' Reunions, and a full and well rounded programme awaits the visitor to the Edmonton Exhibition this year, as well as a complete showing of all kinds of live stock and agriculture products.

Cut rate tickets must be bought before midnight of July 15th: these tickets are on sale at many points throughout Alberta, or from the Edmonton Exhibition offices.

Just Serving

I care not who the honors wield,
Nor who the glory wears a-field,
If I sow but gives good yield.

If Christ's pure spirit (man's ideal)
Becomes more practically real
Through the approval of God's seal.

Placed on what I may undertake,
I gladly give for love's own sake
All power—all visions that awake.

And as I travel on my way
I plant and cultivate and pray
Some one may pluck the fruit some day.

Divine communion can imbue
My soul with an expanding view
And spiritual conceptions new.

NANCY O. PARKE.

Irma, Alta.

An Aberdonian upon leaving a Montreal hotel saw a notice over the cashier's desk, as follows:—"Have you left anything?" So he went back to his room and took soap and towels.

Vegreville Centre of Interest As Trial for Murder Starts

Takes Hour and 10 Minutes to Name Jury in McLeans' Fight for Life—Relatives Respond from Tennessee to Aid Accused

It took an hour and 10 minutes to name the jury and 36 men were called before the panel was completed to commence the trial of William McLean of Tennessee, on a charge of murdering Walter J. Parsille, Mannville farmer, last fall. Mr. Justice Ewing and a jury of six are hearing the case. The son is implicated with the father, Kenneth McLean. The first witnesses were heard at this session, six in all being examined out of the 60 to be called.

Those called for jury duty and disposed of were excused for a variety of reasons, ranging from deafness to a declaration by one that he did not believe in capital punishment.

The jury named is composed of Bliss Dickson, hardware merchant at Vegreville; John J. Leeder, carpenter at Viking; Jack McCallum, farmer at Mannville; W. H. Duncan, implement agent at Vermilion, and W. E. Washburn, merchant at Wainwright.

Ninety talesmen were called altogether and the remainder were excused, until 10:00 a.m. on Monday next.

It was young Vernon Willis who found the body of the dead farmer, face down in his farm yard. A bullet had drilled him through the back as he stepped out of his door. It was noon, Sunday, October 22, when the body was found.

Vegreville is crowded for the trial. The leading hotel is filled to capacity and there is such a rush at the dinner hour as witnesses, the jury and court officials go to the tables, that an additional dining room in the building has been opened.

Some of the court officials have found lodging in private homes.

Relatives of the accused here for the trial are, Robert 17 and Willard

ALMER MATER NOTES

The Merry-makers' play, "The Wild Oats Boy," held in Kiefer's Hall, June 16th, was a big success. A good crowd turned out to see this play and enjoyed it.

The Merry-makers know how to do their stuff. You bet. The dance held after the play was also a big success. The music furnished by the Coulman orchestra made everyone feel good and they thoroughly enjoyed themselves. The Merry-makers' picnic is to be held on June 30th, on the same ground as last year—the N.W. 1-4 sec. 11-46-9-wd.

A good line of sports is being drawn up. Baseball, softball, races, tug-of-war, etc. Also there will be a baseball tournament for country school teams. We expect to have some good baseball teams that day which will be well seeing. Supper will be served and a dance held in the evening, music by Coulman's orchestra. So don't miss this big picnic, June 30.

The Merry-makers wish to thank all who helped to make the play and dance a success. Thank you.

"A rolling stone gathers no moss," quoted a local citizen to a young fellow on the street here. "No, but who wants moss?" the young fellow replied. "A rolling stone sees much and gains polish."

The People Must Pay.

Few, if any, subjects are engaging the attention of people in Canada, as in most countries, as closely as the subject of taxation. The rising burden of taxes is a matter of deep concern to all. Fortunately, it is receiving serious consideration, not only by those responsible for the administration of public affairs, but by individual citizens.

Taxation in our modern democracies is by no means a simple problem; it is cumulative in effect, and its control is extremely difficult. Every governing and administrative body set up imposes a measure of taxation upon all of us, and, in addition, there are many calls made upon people which, while voluntary in one sense, constitute, in the final analysis, a form of taxation.

First, we have Federal taxation, direct and indirect, and levied in a great variety of ways through such agencies as the tariff, excise duties and taxes, sales taxes, income taxes, stamp taxes of various kinds, license fees. Provincial Legislatures follow with a second income tax, land taxes, amusement taxes, license fees to be paid for this, that and the other almost without number. Then the municipalities place another tax on lands, on improvements thereon, some levy a third income tax, some an additional amusement tax, all of them have more license fees to charge. The school boards impose further tax to meet the costs of education.

Hospitals have to be provided for, to some extent this is done through taxation, Provincial and municipal, but often this form of taxation has to be supplemented by voluntary contributions, but which, in reality, are a tax on business and incomes. Churches have to be maintained, even though the law may not compel us to do so, and thus people are in effect again taxed if they are willing to be, and most of them are. Philanthropic and charitable organizations and services of all kinds are maintained in the same way.

The cumulative effect is to produce an almost impossible burden. Until now we find articles appearing in magazines, financial journals, the daily and weekly newspapers recording the hundreds of millions of debt that have been created, and the scores of millions that must be annually raised in taxation, while organizations of all kinds are conducting investigations and studies with a view, to arriving at some means whereby the burden can be lessened, and any further increase of it prevented.

Prevention of any further increase is an easy matter if the people, who are the sufferers, determine there shall be no further increase. Individuals know they must keep within their incomes, or they are headed for trouble and disaster. Private business knows it must accommodate itself to its income, or it will end in bankruptcy. What individuals and business must realize is that what is true in their respective cases is likewise true in public business.

Many people, possibly a majority of them, who are fully aware that they must live within their incomes, have nevertheless acted in the belief that it was not necessary for the governing bodies created by them, and supported by them, to follow the same course. Rather, people have insisted that their governments, Federal, Provincial, Municipal, should provide this and that service, and as the people make and un-make governments, the latter have naturally done what their creators demanded they should do. But these same governments have no income except the power to tax people, and this they have proceeded to do.

What people must realize is that if they demand of their governments certain services they must be prepared to pay for those services. They cannot have them otherwise. And if they cannot afford to pay for them, then there is only one thing they can do, and must be prepared to do, and that is to go without them. That is, in their collective capacity they must govern themselves by exactly the same rules as they are forced to recognize and obey as individuals. If they cannot pay they must be prepared to do without what they would like to have and would have if they could afford it.

It is being predicted that the worst of the depression of the last three or four years is over; that things are once again on the up-grade; that better times are slowly but surely developing; that, in a word, the world is beginning to turn that corner around which it has been said prosperity is lurking. Let us all hope so. But when we have reached and turned that corner and we are once again tempted to demand something of our governments we would like to have, and think they ought to supply, it will be the part of wisdom to pause and consider whether, after all, we can afford to have it, because, no matter what it may be, it will have to be paid for, and paid for by us—the people—and paid through the medium of taxes in one form or another.

Many glowing promises are frequently made, and are still being made notwithstanding the bitter experience of the past few years, of what the State can, and ought, and will do for all the people if certain principles in administration are adopted. But if these wonderful things are done, the people will pay for them in taxes. And every dollar that people have to pay in taxes is just a dollar less left in their own pockets to spend in meeting their individual tastes and desires and needs. Either they are going to do certain things for themselves as they desire to do them, and pay for them themselves, or they are going to have the State do these things for them, as the State may determine they should be done, and then pay the State in taxes for the services so rendered.

In any event, and under all circumstances, the people will do the paying. They too, can do the ordering. They can order beyond their means, and get into trouble. They can order for themselves, according to their own needs and desires, and pay for what they order. Or they can order the State to do the ordering as the State may see fit to do, and then pay the bills incurred by the State. And the decision, whatever it may be, will be the decision of each and every man acting in his or her capacity as an individual free citizen.

The main point to remember is that there is, notwithstanding the mistaken use of the word, nothing free in this world. Everything has to be paid for, and it is the people who have to foot the bills. Therefore, the day and the manner of settlement should always be kept in mind before the liability, whatever it may be, is incurred.

Colonization Plans

Calgary Families To Be Settled On Land In The North

Under a plan proposed to Calgary city council by Rev. O. P. Brown, president of the Land Association of Calgary, 30 families on unemployed relief in Calgary would be settled on the land at St. Paul de Metis, north of Edmonton.

The 30 families have made application for the transfer and efforts to bring them under the Dominion Government back-to-the-land scheme are being made, so the colonization scheme can go through.

Sixty per cent. of the public school buildings now used in the United States are one-room structures.

Not Open To Challenge

United States Fleet Has Perfect Right In Pacific

There is no good reason why Japan should become excited because the United States fleet is being ordered to remain in the Pacific till July, 1934; still less for supposing that the presence of the fleet in these waters is "a veiled threat." Inasmuch as the United States owns Alaska, the Philippines, and Honolulu, and as her continental territory with a Pacific seaboard extends over 18 degrees of latitude, from Juan de Fuca Strait to San Diego, the movement of her fleet in these waters is open to no kind of challenge.—Australasian.

Nearly 8,000,000 spindles are being operated in textile plants in Japan.

Her Heart Was Weak Nerves Shaky, Nights Restless

Mrs. A. Black, Wallaceburg, Ont., writes: "I suffered from heart weakness, shaky nerves, and restless nights."

I saw your advertisement for Milburn's Heart and Nerve Pills and decided to try them although I did not have much faith, but now I am very thankful I did as they have proved of wonderful help to me.

I am now strong and well again, but am never without a box in the house."

For sale at all drug and general stores; put up only by The T. Milburn Co., Ltd., Hamilton, Ont.

Scientific World Is Reserving Judgment

As To Whether Living Bacteria Is Found In Meteorites

No successful refutation has yet been put forward of the claim of Professor Charles B. Lipman of the University of California that he has found living bacteria in meteorites, according to Professor F. E. Lloyd, of McGill University, president of the Royal Society of Canada.

While making it clear that he was not committing himself to support of Professor Lipman's theory, Professor Lloyd, who has been in communication with the California savant, declares that all who know Professor Lipman recognize in him a careful and exact observer who is not given to rushing into half-baked theories. Professor Lloyd declared that Lipman's account seems to indicate that he had taken every precaution he could think of to guard against the accidental transplanting of bacteria into his samples.

The McGill professor also informed The Toronto Star Weekly that an earlier theory of Professor Lipman announcing discovery of live bacteria in coal seams is supported by a German scientist, who, working independently, came to the same conclusions as Professor Lipman.

Like Professor Lloyd the scientific world is still withholding judgment on both cases, although Professor Lipman's announcement as to meteorites is criticized by some who assert that the bacteria must have got into the meteorites after they had reached the earth.

Harnessing Sun Power

May Supersede Water Power As a Source Of Energy

Opening ceremonies of the fifth Pacific Science Congress at Vancouver were featured by the radio address of Lord Rutherford, famous Empire scientist, speaking from Cambridge, England.

Harnessing the sun's power may supersede water power as a source of energy in the future if large scale development of a power plant at the Smithsonian Institute, Washington, D.C., proves practical. Dr. C. G. Abbot, secretary of the institute, indicated.

Dr. W. S. Adams, director of the Mount Wilson Observatory, California, outlined his theory that sun spots occur in regular cycles of 12 years. At present, the sun is comparatively exposed to the earth, he said. Dr. Adams discounted any connection between weather on the earth and sun spots.

The annual crop of icebergs from the Greenland glaciers is about 15,000.

A diamond, when chemically pure, is composed solely of the element carbon.

AFTER WINNING THE AUTO CLASSIC

Louis Meyer (right) winner of the 500-mile Memorial Day classic at the Indianapolis Speedway, pictured with his mechanic in their car just after the finish of the grueling race. Meyer, whose victory marks his second triumph in the big event, set a new record for the contest.

CAPTURED BANDIT

Sought for years as the last of the powerful Corsican bandit chiefs, Andre Spada (above) recently surrendered to the authorities at Ajaccio, Corsica, where he appeared in rags with a crown upon his head. Authorities believe the bandit leader's mind is deranged.

Britain Wants Empire Products

Plan To Have Empire Ham and Bacon Plainly Marked

A standing committee established by the British Minister of Agriculture recommended that a marking order be applied to all imported bacon and ham. This means if the committee's recommendation is adopted all foreign ham and bacon will bear the mark "foreign" and all such products from the Empire will bear the mark "Empire" with the name of the country of origin in addition.

Canadian ham and bacon thus would be marked Canada and Empire "in block lettering not less than three-quarters of an inch high." "We are satisfied," the committee reported, "that in absence of adequate marking there are obvious opportunities for substitution of imported bacon and ham and of foreign bacon and ham, and that this fact in itself constitutes a strong reason why the public should be given protection and assistance which a marking order alone could give, and the honest retailer given protection against revival."

"It was suggested that as result of propaganda during the past year or two, there is now quite definitely an increasing desire on the part of the public to purchase home or Empire produce as against foreign produce and that, in order to meet this desire in regard to bacon and ham, a marking order is necessary."

More than 90 per cent. of British imports of bacon and approximately 80 per cent. of ham imports were of foreign origin in 1932. Of the former, Denmark supplied 67 per cent. and of the latter the United States supplied 58 per cent. Empire supplies have been almost negligible in the case of bacon and such supplies as reached the British market came mainly from Canada and the Irish Free State, whose proportions were 1.6 and 1.8 per cent., respectively. In the case of ham Canada supplied 17.8 and the Free State 1.9 per cent.

Portraits Of His Majesty

Five portraits of His Majesty the King were presented to Inspector Sandys Wunch, of the Royal Canadian Mounted Police, by Miss M. F. Mackenzie, regent of the Municipal Chapter of Montreal, I.O.E.E. These portraits are intended for five detachments of the Eastern Arctic sub-division of the R.C.M.P.

Daring Burglar Still

Is Puzzling Detectives

"Gimlet" Jimmy Reported To Have Made \$100,000 In Clever Robberies

"Gimlet" Jimmy, the most daring—and elusive—burglar in England, whom detectives have been trying to capture for 11 years, carried out two robberies involving £1,300 in cash, early on a recent morning with lightning swiftness.

The problem facing the police in their hunt for Jimmy is that they have no notion of his appearance.

Nor has he ever left behind him a single clue which, in the event of his capture, would definitely establish his identity with his previous crimes.

Only once has a glimpse been caught of him. That was seven years ago when, in carrying out the greatest coup of his career—the raiding of a Deansgate, Manchester, bank—the night watchman saw Jimmy for a fleeting instant as he ran past a door in making his escape.

But Jimmy, who nearly always confines his activities to the north of England, has one invariable method of approach.

He watches and learns the habits of his intended victim, usually a wealthy shopkeeper.

Then comes the night when Jimmy begins work.

First a visit to his victim's house for the keys of the shop and any valuables in the home safe.

Afterwards, armed with the keys, there is the raid on the shop.

On the latest occasion, Jimmy entered the home of W. Smith, of Ash-ton-on-Mersey, and, without waking the owner, took a bunch of keys from the bedside and opened a safe in the house, from which he took £300.

Half an hour later Jimmy had taken another £1,000 from the safe of Mr. Smith's shop in Gorton.

Jimmy, whose name of "Gimlet" comes from his peculiar method of entering a house through a window, is estimated to have secured more than £100,000 by his burglaries.

A Long Session

Last Session Of Parliament Extended Over 232 Days

The session of Parliament just closed extended over 232 days including the adjournment from November 25, 1932, to January 30, 1933. Only two sessions since Confederation in 1867 have been longer, the longest being the third session of the 11th Parliament which was from November 17, 1910, to July 29, 1911, or 255 days. The next longest was the seven session of the 12th Parliament, which sat from January 18, to September 20, 1917, or 246 days. The third session of the fifth Parliament sat from January 29 to July 20, 1855, or 173 days. The shortest session was the fourth of the 12th Parliament which met on August 18, 1914, and prorogued on the day of the same month. Those five days, however, were among the most momentous in Canada's history for in that brief time the Dominion decided on the policy to be adopted in connection with the Great War.

British Built Aircraft

Have Been Granted An Official Distinguishing Mark

British-built aircraft have been granted an official distinguishing mark—a lion rampant in gold within three rings of red, white and blue. Within the white ring are inscribed the words, "British Certificate of Airworthiness." The mark has been registered under the Trade Marks Act.

The air ministry announcement of the new mark, which will at once distinguish British-built flying machines, no matter what nation's registration markings they bear, states that the mark is authorized to apply to any aircraft, whether lighter or heavier than air. No fee is required for the authorization.

The first aircraft mark authorized was affixed at the London air station, Croydon, to "Astraeus," one of the Imperial Airways fleet.

One Kind Of Deal

"Angus—I've made a big deal." I traded that old horse of mine for a load of hay.

Sandy—But what's the good of the hay if you haven't got a horse?

Angus—The man's going to lend me the horse long enough to eat up the hay.

The parrots, tortoise, reptiles and birds of prey are found to be the longest lived inmates of the London zoo.

All the gold mined in the world since Columbus discovered America would amount to about \$22,413,000,000.

Put Ogden's Cut Plug in your pipe and join the parade! Step along with those who've discovered the pleasure that only Ogden's Cut Plug can give to a pipe smoker.

There's only one way to prove that Ogden's Cut Plug is the kind of tobacco you're looking for—put it in your pipe and smoke it!

OGDEN'S CUT PLUG

If you "roll your own," use Ogden's fine cut cigarette tobacco and Chantecleer cigarette papers

Not Affected By Depression

New Zealand Has Steadily Increased Volume Of Exports

The effects of the depression upon New Zealand have been to some extent modified by the success of efforts to counter-balance falling prices by increasing production. While other countries have been afflicted by rapid contraction of their export trade, in volume as well as in value, New Zealand has steadily increased the volume of her exports. In 1928 exports were 12 per cent. greater than in 1926; the official estimates for 1931 show an increase of 20 per cent. in five years, and the volume must have been again substantially greater in 1932, for, in spite of a much lower range of prices, the total value was larger than in 1931.—Auckland News.

"Jones Minor, your father helped you with this essay?"

"Yes, sir."

"Did he write it all?"

"No, sir. I helped him. I corrected his spelling mistakes."

At the present rate of recalculation, the glaciers of Mount Rainier National Park probably will disappear in a few thousand years.

"In these bad times you can still travel first-class?"

"I have to. I meet my creditors in the third class."

W. N. U. 1933

HER HAND FELT DEAD

Helpless With Rheumatism

At one time she thought she would lose the use of her right hand. But a blessing—in the form of Kruschen Salts—put her right again. "I was sure in a bad state," she writes, "in fact, I could not do my housework. I was so bad with rheumatism in my arms and hands. I could not sleep at nights, and had to get up and heat water to ease my pain and numbness. I took all kinds of medicines. I rubbed it and plastered it—but it was still there. I thought I would lose the use of my right hand. I could not hold anything, nor could I sew a button on. My arm would go dead. I was advised to try Kruschen, and inside of three weeks I found such a change. I have kept on taking it, and am so thankful for the blessings I have received in Kruschen. Now I sleep all night—thanks to Kruschen's help and relief."

(Mrs.) J. H. The six salts in Kruschen stimulate the liver and kidneys to healthy, regular action; assist them to get rid of the excess uric acid which is the cause of all rheumatic suffering. When poisonous uric acid goes with its deposits of needle-pointed crystals—there's no doubt about those aches and pains going too!

CHAPTER XI.—Continued.

Before the spray from the plane's heavy fall had died, he saw a man on his feet, stripping off helmet and jacket, looking back at the flags where the bandits lay hidden and the ready bow where Joyce had found a temporary refuge.

For a moment, numbed by this sudden crash of all his plans, he stared hopelessly across that watery tundra and sand dunes. The launch was stranded miles away; Pedneault and Bill were both out of the reckoning; the plane was disabled; the bandits were free to recapture Joyce and escape in their canoes. In the space of five minutes his whole venture had come to nothing.

From the bandit's covert to the bog where Joyce was hiding was a scant two hundred yards. Whatever move he tried, he must act swiftly. In a very few minutes, when those men recovered their wits, they were going to seize their advantage; they were going to whip across, beat through those flags and find her again. She would never flit out of their hands a second time.

Whirling on Buzzard, he demanded sharply: "You can't taxi back there? Can't get me close enough to use the Browning?"

"Can't taxi a foot. Motor's out. They hit something; that's why the engine konked on us. Think the wire to the timber box is cut."

"How long is it to fix that?"

"Take us an hour."

Even as Buzzard spoke, Alan saw the bandits rise up under the flags and start shoving their canoes into the water. They were going to dart across and recapture Joyce.

At the sight of that, his last hesitancy was swept away. Snapping around to the fuselage cubby, he jerked out the frail canvas canoe and unfolded it. Buzzard had been thrusting fingers, wrench and tape into his pockets, but now he stopped and stared wide-eyed at his partner.

"Good Lord! You don't intend . . . ?"

"What else? Stand here and watch them hunt her down?"

"Across that open water? Right into their rifles? Them shooting into you from cover? Alan, don't! For God's sake, don't try that!"

Alan jammed the last thwart-prop into its notch, lifted the canoe one-

handed down upon the water, flung in the paddle and jumped down upon a float.

"Hand me the Browning and the cartridge webs. Come alive! Don't you see they're starting across to get Joyce? Why shouldn't I go after them on open water? Larry Youngie did once. Hand those things down!"

"All right, then," Buzzard gave in. "But if you're going . . . He seized the second rifle which had been Joyce's and flung a leg over the cockpit edge. "I'm in on that, son."

Alan fended him back with an arm. "Stay here! That's what I mean! You can't help—out there. If you'd go, if they'd sink the boat, we'd both be out. Get busy on this plane. Fix it. You've got her rifle to fight 'em away from you. If they put me out of business, you can whip down and get Pedneault and fly over to join Bill. You three can carry it over with them."

He pushed off Buzzard's restraining hand, stirred away from the plane and angled west toward that acre of thick flags, where the bandits had been driven to cover.

Pliers in hand but his work forgotten, Buzzard climbed upon a wing to watch the outcome of that fearfully uneven battle.

Alan's goal was a little patch of reeds three hundred and fifty yards from the bandits. It was a miserable place to fight from, when those four rifles yonder would be snarling at him from perfect hiding. The patch was merely a few yards square; the reeds, only a couple of feet high, were so sparse that one could see through the clump; and the approach to it across that open water was a gauntlet of death.

But it was all the cover Alan saw, and it was better at least than nothing. The reeds meant that the water there was shallow enough for him to plant the Browning. By padding up fast with the canoe bow-on, he believed he might get to the flags. Once there, once the Browning leaped into play, he could smother those rifles in a few seconds.

A moment after Alan turned to look, the "breed crouched, steadied his rifle and drew aim. Alan ducked down, the bullet screamed over his neck. It had been aimed at his head. By the fraction of a second he had saved his life. The next bullet struck him, burned through his shirt sleeve, tore a gaping fearful wound through the muscles of his fore-arm, and missed in front of his body, three inches from his heart.

Knowing that the next bullet would surely kill him, Alan flung himself bodily out of the boat to escape that dreaded rifle. Submerging himself with the craft between him and the "breed, he clutched the gunwale with his shattered and bleeding hand. Pushing the clumsy craft, he started to swim, in a last goaded effort to reach the safety of the tiny islet. A dozen yards farther on, in hip-deep water, a spinning slug struck the middle thwart of the canoe squarely and the frail craft caved in. Grabbing the gun and cartridge webs out of it, Alan flashed a glance at the bandits, rose, and dashed for cover.

Staggering under his heavy burden, with his feet sinking into the quivering muck underfoot, he splashed frantically through the water, throwing all his exhausted strength of body, all his undying strength of heart and will, to those two-score yards. His little haven of safety became dim—a looming red blur seen through a reddish mist. He was struck in the leg; the shock staggered him, he dropped a web of cartridges; but, gripping the others tighter, he lurched on.

Nearly blinded, breathing in hoarse gasps, with his great strength ebbing away, he groped and stumbled through those last few yards to the tiny islet, and collapsed there behind the big swan nest.

For a little time, a minute or two, he lay quiet, breathing heavily, fighting down a nausea of pain. Dimly he heard those rifles still snarling at him and heard the sing-song of their bullets whanging overhead and plugging into the mud and dry reeds.

Had Thrilling Adventure

Two Youths Make Bicycle Trip From South Africa To England

A thrilling adventure was completed by two young men, Richard S. Kockler, a German, and Kenneth D. Poulton, a South African. They travelled all the way from Johannesburg to London on bicycles fitted with engines of only one and a quarter horse-power. They travelled 15,000 miles by way of Nairobi, Khartoum, Cairo, Istanbul, Vienna, Berlin, and Amsterdam to London. On several parts of their route they travelled over paths through the bush where no motor-cycle or any other kind of mechanical transport had ever travelled before.

Summer railway excursion rates in Canada have been reduced to two cents a mile.

Mysteries Of The Sea

Every Coast Has Its Story Of Vanished Ships

The "Zebrina" was a sailing ship, and during the war was running between England and France under Government commission. One day she was being driven derelict in the English Channel, a mile or two from Cherbourg.

She was not, obviously, a derelict. All her sails were properly set, and she was in first-class condition. But the way she was sailing prompted investigation and it was discovered that there was not a living soul on board. On the cabin table was a meal all ready for the eating; everything was in perfect order; there were no signs of a fight, or anything to account for the absence of master and men.

Yet they had all vanished completely, leaving no trace. Nothing has ever been heard of them since, nor the mystery of their disappearance explained.

They may have been victims of some enemy craft. That is the presumption. But the fact has never been established.

Another mystery of this character was the disappearance of the crew of the German fishing-boat "Scharnhorst," which one winter's day set out from its home port on a trip to the White Sea. It never returned. A long time afterwards, the vessel was found, locked in a mass of snow and ice, by the crew of a Norwegian vessel. There was nothing wrong with the ship, but the crew had vanished. Their fate is still a mystery.

The mystery of the American collier "Cyclops," whose disappearance during the war was never explained, is rapidly attaining the character of a sea legend among American sailing men. She vanished an hour or two after "speaking" with another vessel, flying the American flag, in a sea like a millpond. Not a single spar was ever found—nothing to give a hint of what happened to ship and crew.

Now and again on moonlit nights American seamen, who knew her well have helped built up the legend concerning her by "seeing" her well-known lines, clearly outlined for a moment or two on the horizon.

Every coast has its own story of some ship that has sailed away never to return, vanishing entirely without any word ever coming of its fate; and of strange spectre-ships which afterwards haunt the waves. They are being added to, even in these days of enlightenment.

THE RHYMING OPTIMIST

By Alice Michels

CONTENTMENT

What is there to regret or to desire in this green valley where we dwell today?

What ash of any burnt-out passion's fire

Can blow on any wind down this calm way?

What is that of remembrance that could bring

The faintest pang for pleasures not to be

Or cast its shadow on this ardent spring?

To veil the glowing hue of field and tree?

Here is the region for which all men long.

Although by devious routes they wander far;

The home of peace is here, the home of song,

And beauty tranquil as the evening star.

For these green slopes with flowers overgrown

A king might gladly leave his crown, his throne.

Voltaire could never begin work unless there was an exact dozen of pencils with sharpened points at his side.

Automobiles are replacing pack animals and horse-drawn vehicles in Persia, where there are now 10,000 miles of motor roads.

It requires about 55 different machines to produce wet shoes.

School children of Scotland will have a course in telephoning.

SOURD ON THE WORLD?—THAT'S LIVER

Wake up your Liver Bile

No Calomel necessary

Many people who eat, sleep, wash and generally make the mistake of taking salts, oil, mineral water, laxative candy or "liver pills," or "cathartics" which only irritate the bowels and poison the liver.

What you need is to wake up your liver bile. Start your liver pouring the daily two pounds of bile into your bowels. Get your stomach and intestines working as they should.

Carter's Little Liver Bile will soon fix you up. Purely vegetable. Safe. Sure. Quick. Ask for them by name. Refuse substitutes. See all druggists.

THE TIRE that TAUGHT THRIFT to THOUSANDS!

GET the most for your money—buy Firestone—the tire that gives you 25 to 40% longer tire life at no extra cost. Think of it—extra strength—extra safety—extra mileage and only in Firestone can you get all these features—

- 1 TWO EXTRA CORD PLYS UNDER THE TREAD make the tire safe at any speed.
- 2 GUM-DIPPED CORD BODY with 58% longer flexing life.
- 3 BALANCED CONSTRUCTION holds the tire on the road at high speeds.
- 4 SILENT, SAFETY TREAD made wider, deeper and gives 25% more non-skid life.
- 5 AMAZING NEW GUARANTEE protects you against blowouts; cuts, bruises and all other road hazards, except punctures for twelve months.

Replace worn tires.

World's Largest Dam

Immense Artificial Lake To Be Created In Nevada

Construction of the world's greatest dam was started in Nevada recently.

Without ceremony the pouring of concrete into the river bed foundation for Boulder Dam began. For more than two years this pouring—7,000,000 tons in all—will continue. Thus will rise a vast concrete structure, 730 feet from the foundation rock, and sufficiently high to raise the height of the Colorado 582 feet to create the greatest artificial lake man so far has set out to build.

August 1, 1935, is the date the dam will be finished. It will be 1,350 feet across and will require 5,500,000 barrels of cement in its construction.

Noisy Northern Lights

Aurora Borealis Makes Hissing Sound In Northern Skies

When the aurora borealis flings its gorgeous draperies across the northern Canadian sky it is audible, according to C. S. Beals, astronomer of Victoria. In a paper read before the fifth Pacific Science Congress at Vancouver, Mr. Beals affirmed what many who have lived in the north have taken for granted. He declared that in an extended analysis of observations made by residents of northern Canada, nearly 150 persons reported having heard the auroral sound. They describe it variously as a hissing, swishing or rustling sound. Mr. Beals said, and reports agree with those going back into history of the north to the time of Samuel Hearne in 1797.

About 400 varieties of daffodils are now being grown in British Columbia and the number is steadily increasing.

Angler (to rival proudly displaying catch): "Thank goodness, you've caught him. I'm tired of throwing the little beggar back."

To restrict imports of flax the German government will pay a subsidy to German flax growers.

Little Helps For This Week

"Search me O God, and know my thoughts; and see if there is any wicked way in me, and lead me in the way everlasting."—Psalm 139:23, 24.

Save us from the evil tongue. From the heart that thinketh wrong. From the sins whither they be. That divide the soul from Thee.

Such as are thy habitual thoughts, such also will be the character of thy mind; for the soul is dyed by the thoughts. Dye it then with a continuous series of thoughts such as these: "Where a man can live there he can live well," for if he must live in a palace, he can also live well in a palace.—Marcus Antoninus.

Who is there that sets himself the task of steadily watching his thoughts for the space of one hour, with the view of preserving his mind in a simple, humble, healthful condition, but will speedily discern in the self-reflecting, self-admiring emotions a state as much opposed to simplicity and humility as night is to day.—M. A. Kelly.

By subjecting it to a simple impregnation process wood has been made bullet-proof, wind-proof and water-proof in Germany.

Second-hand car Salesman (on trial ground): "This car is found in every part."

Prospective Buyer—"So I hear."

"Make a sentence containing the word 'omnivorous'."

"Omnivorous happy as when I'm playing football."

NERVOUS WOMEN

Take Lydia E. Pinkham's

Vegetable Compound

"I am an nervous it seems as though I should be." "My nerves are all on edge." "Why I've heard these expressions from some women who have become so tired and run-down that their nerves could no longer stand."

No woman should allow herself to drift into this condition. Lydia E. Pinkham's Vegetable Compound is the only remedy that will give these women strength and vigor.

98 out of every 100 women who report as nervous that they are benefited by this medicine. Buy a bottle from your druggist today—and watch the results.

W. N. U. 1938

The Canadian Pacific liner, Duchess of Bedford, which reached Liverpool on Saturday, from Montreal, brought 69 boxes of bar gold, each weighing about 100 lbs., of a total value of about one and three-quarter million dollars. The bullion had been consigned by the Bank of Montreal in Canada to the London Branch of the same bank—London (Eng.) Times.

TEACHER WANTED—An experienced male teacher, Protestant, is required for the senior room of the Irma Public School. Please state qualifications in application. Applications will be received up to and including July 15th, 1933. E. W. Carter, secretary, Irma School District, No. 2435.

Main Street

Dr. Richardson, of Viking, has taken over the dental practice at Irma of Dr. Murray and will from now on visit Irma every Friday where he will continue to work in the rear of the Drug Store.

Don't forget the Merry-makers' picnic on June 30th.

All stores in the Village of Irma will be closed all day Saturday, July 1st. Please govern yourselves accordingly.

There will be a basket picnic at King's farm on Wednesday afternoon, July 19th, sponsored by the Avondale U.F.W.A. Features will be: a horse-shoe tournament and Gypsy tea. Coffee provided on the grounds.

Rev. and Mrs. Bateman of Wainwright were calling on some of their parishioners in Irma Tuesday afternoon.

H. E. Parke made a business trip to Mannville this week.

Mrs. Wm. Dalton and little Dorothy spent the past week with Mr. Wm. and Mrs. S. M. New and the Whitley family.

Mr. and Mrs. McCreadie and Mr. and Mrs. Earle Prior and daughters, Evelyn and Betty Anne, were Sunday visitors at the home of Mr. and Mrs. J. U. Allen.

Mr. and Mrs. S. M. New and Mrs. Dalton and Dorothy were visitors at King's Park on Sunday.

Miss Emma Cooper has accepted a position in the Herbert home.

Rev. Mr. Taylor of Jarrow is being moved to Milk River, Alta., close to the international boundary, while Rev. M. L. Wright who preceded Rev. J. R. Geeson at Irma, will be stationed at Paradise Valley, north-east of Wainwright, for the next few years.

The Times' editor would welcome a correspondent from each of the outlying districts around Irma: some one who would write up all local doings, accidents, and anything to help make the paper more interesting. News should be in not later than Wednesday noon of each week.

We are glad to report that Mrs. Cole is home from Edmonton and feeling well since her recent operation.

Miss Mildred Murdock of Edmonton arrived in Irma on Saturday, June 4, for a two weeks' visit with her sister, who has been teaching in the Glenholm school.

Mrs. Ralph Dunlap and children, Orville and Mavis, of Thorshy, Alta., came in to Edmonton on Monday and returned home with her parents, Mr. and Mrs. J. Fenton for a visit with brothers and sisters in Irma.

Rev. and Mrs. Humm of Wainwright stopped over to visit at the Manse on Tuesday on their way through to their new location at Wembley, Alberta, in the Peace River district.

Mr. Kenneth Frant, formerly of the Irma bank staff, was a visitor in Irma last Friday evening on his way back from an extended motor holiday.

Mr. Ole Enger Jr. had rather a serious operation in the Wainwright hospital Tuesday morning, but latest reports are that he is resting fairly well. Mrs. Enger and children are staying with her sister, Mrs. G. Armstrong, in Wainwright, to be near Mr. Enger for a few days.

Mrs. Sil Simonsen Jr. spent most of last week in Edmonton visiting her parents, Mr. and Mrs. W. E. Goodale. Mr. and Mrs. J. Fenton and son, Gordon, accompanied by Miss M. Fitzpatrick, motored to Edmonton and back over the week end.

Mrs. Jack Fletcher and Mrs. N. S. Johnson, accompanied by their sons, Jackie and Garth, spent last week in Edmonton. While in the city both boys had their tonsils removed.

Mrs. Jack Levitt is expected home from the Wainwright hospital the latter part of this week.

A meeting of all those interested in hockey will be held in Hedley's hall, at 8 p.m., on July 6th, for the purpose of deciding on a permanent location for a skating rink. A good attendance is requested.

Mr. Ireland, teller of the Bank of Montreal at Irma, is away on his holidays.

Women's Institute Notice

The regular meeting of the Women's Institute will be held at the home of Mrs. Howard Peterson's, on July 6th, at 2 o'clock.

This is the annual grandmothers' day and we hope all the grandmothers of the district will attend as they are cordially invited. As many members who have cars please see that all the grandmothers who can attend will have a way out. All ladies are cordially invited to attend this meeting.

MRS. R. C. McFARLAND, Secretary.

GRANT FLEMING, M.D., ASSOCIATE SECRETARY

Why Hobbies?

Most of us wish to do one or more things outside of the work which is our daily task. These are the things of which we should make a hobby, because of the pleasure we derive in doing what we want to do, releasing us from the routine to which we are more or less committed for various reasons.

A hobby gives pleasure and satisfaction without any consideration of financial gain. It should be widely different from our regular occupation, and it should not be costly. Above all, it should entail no compulsion, as it should be a perfectly free expression of a personal desire.

People vary so much in their personal desires and in their capacity for doing things that there is the greatest possible range of activities included in the hobbies which are selected. One man collects stamps, another goes in for photography, while still another finds his hobby at the carpenter's bench or in raising flowers. Whatever the hobby is, it is play; it means doing what we really want to do.

It is healthful to have a hobby. For the indoor worker, it is preferable that his hobby take him out of doors. The man or woman who sits all day should have a hobby that calls for muscular activity. In these desirable ways, fresh air, sunshine and

exercise are secured in an enjoyable manner, and, as a result, health is improved.

The hobby provides a release from the worries of the daily grind, and furnishes a real and active interest. Hobbies help us to overcome the difficulties of life, and make life more worth while. Hobbies are educational because of the opportunity they present for constructive efforts. They provide a means of gaining personal satisfaction through accomplishment, and, in every way, promote mental health.

You cannot make yourself cultivate a hobby, but you should give yourself a chance to ride a hobby. Your hobby will be your own, and if it provides an interest, if it gives you pleasure and satisfaction, and if it allows you to escape from business and other worries, then it is a good hobby for you.

All we have said amounts to this—we should have some play throughout life, and one desirable form of play is to be found in hobbies. Physical and mental health benefit, life is made more pleasant, and, in all, hobbies are recommended for everyone.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

Review of Western Markets

Cattle—Edmonton market displaying easier tone. Quotations about steady, with buyers not active on grass cattle. Choice heavy steers bringing \$3.75@4.25; choice light \$4@4.25; good \$3.50@3.75; medium \$3@3.50; common \$2@2.50. Choice heifers sold at \$3.75@4; good kinds \$3.50@3.75. Choice cows went over the scales at \$2.25@2.50; good \$2@2.25; medium \$1.75@2; common \$1.25@1.50. Canners and cutters \$1.50@1.75. Choice bulls \$1.25@1.50; medium \$1@1.25; canners from 50c up. Choice light calves \$3.50@4; common \$2@3. FEEDERS-STOCKERS—Feeder steers from \$2@3; stock steers \$2@3; stock cows from \$1.50@2.

Hogs—Edmonton prices up 40c. Bacon selling at \$4.00; select \$3.40; butchers \$4.40, fed and watered basis.

Sheep—Receipts fair at Edmonton, but market easier. Yearlings \$2@3.50; ewes \$1@2; lambs \$3@5.50.

Poultry—Eggs—POULTRY—Receipts increasing. Fol and broilers offered, with former comprising bulk of deliveries. Decline in egg production seems to be resulting in heavy movement of birds to market. Quality fairly good. Fair eman for fowl, but broilers slow; prices steady: Fowl, No. 1, over 4 lbs., 8c; No. 1 under 4 lbs., 21c; No. 2, 18c; No. 1 under 4 lbs., 6@7c; No. 2, 4c. EGGS—Receipts showing marked decrease. Hot rather bringing a large number of seconds onto market.

New Regulations For Dancing and Dancers

An Edmonton dispatch under date of Friday, June 16, states that late hours in public dancing places are banned by new regulations to the Theaters Act just issued by Order in Council, as follows:—"In any entertainment hall where dances are held, dancing is prohibited between midnight on each Saturday and 8 o'clock a.m. on the following Monday, and between 1:00 o'clock a.m. and 8 o'clock a.m. on each Tuesday, Wednesday, Thursday and Friday.

"Minors under 18 years of age shall not be admitted to an entertainment hall where public dances are held unless accompanied by parent or guardian."

C. N. R. S.O.U.P.

Winnipeg.—Dining car chefs of the Canadian National System say this is the way to make baked soup: Take three points of cold water, a half pound of beef or mutton, one cup of split peas, one tablespoonful of rice, one small carrot (sliced), and one small onion (sliced). Wash the rice and peas and put them in the pot with the other ingredients (meat being put into small pieces). Add salt and pepper and cover the pot closely. Cook in slow oven for four hours. If water boils away, add more.

Alma Mater-Roseberry Ladies' Aid Meeting

The Alma Mater and Roseberry Ladies' Aid held their meeting at the home of Mrs. Russell Williamson on Tuesday, June 27th.

The president, Mrs. Fisher, conducted the meeting and there were eight members present. Two new members joined, namely: Mrs. Burton and Mrs. Orten.

During the afternoon Mrs. Orten entertained with a delightful solo.

The next meeting will be held on July 27th at Roseberry school, when final plans for a garden party to be held at this same school on Wednesday, August 2nd, will be completed.

At the close of the meeting a social half hour was spent over the tea cups. Mrs. V. Larson and Mrs. Fisher were hostesses.

Mail Carrier to Quit

At the end of June the rural route No. 2 patrons will be losing Mr. C. Pile as mail carrier. It is indeed with much regret that we have to lose the services of one who has given such splendid accommodation the past three years on this route. It is a credit of no small merit to know that in this three years of service, Mr. Pile has only lacked a few miles on one trip in a heavy snow last winter when his horses played out and he only made as far as Avonleigh school. This was the only break in his twice-a-week trip and we all know there has been times when the roads only permitted of a horse and pack saddle getting through and none of the route patrons expected him to make the rounds. Much credit is indeed due to one who has rendered quick and splendid service.

Celebrate Midsummer's Day

On Saturday evening, June 24th, about sixty neighbors of Glenholm and Coal Springs districts gathered at the Big Hill, south of Glenholm school, to celebrate Midsummer's Day. Since this is an old Norwegian celebration, Mrs. J. Gulbraa served fløtrotter, as is the custom, before supper. During the evening various games were played. Later, when darkness came, a large bonfire was built. Young and old gathered around it to enjoy the roasting of wieners and a sing-song. Upon dispersing for home everyone hoped the event would be repeated next year.

Lawn Social

A lawn social under the auspices of Sharon's Lutheran Ladies' Aid will be held Wednesday afternoon, July 5th, at the home of Mr. and Mrs. Fred Knudson.

Supper will be served from 5:30 until 8:00 o'clock, at 25c and 15c per plate. Softball, horseshoe, races, ice cream and lemonade will help everyone have a good time.

Legion Picnic, July 19th

The Irma Branch, No. 112, Canadian Legion, B.E.S.L., will hold a sports day on July 19th at the Irma fair grounds. Baseball, girls' softball and races for the children. Admission, 25 cents each. Children and cars, free. Dance at night in Keifer's hall, Coulthart's orchestra. Watch for notices and further particulars.
